

# Phase Four

While Phase Three began the process of moving from OS 43 to OS 1, Phase Four completes the changes. Between them, a series of sub-phases deal with each adjustment. We covered those movements in the previous update.

In Phase Four, two important things occur. Firstly, OS 1 places nine planets in the 11th ring (follow the orange arrows). Secondly, Moroni 10:31 ends on the 10th ring. This yellow planet finally finds a home at that location.

I have also included two additional sections after Phase Four. Adjustments Isolated shows the adjustable planets by themselves. Soul Mates--Moroni 8:34 & 10:31 cover the relationship between the two during the adjustments.

In summary, I wanted the reader to glimpse a cosmic view of what is a hidden universe of the Book of Mormon. One aspect of the genius in the book deals with slanting of adjustments (crown to wisdom, wisdom to understanding, understanding to mercy, etc.). Hopefully, the use of planets makes it easier to see this pattern. Unless advised by many of you, I plan to provide a planetary layout to show these patterns and more with every system I bring forth on this website.

## Soul Mates--Moroni 8:34 & 10:31

In Phases 1 & 2, OS 43 shows Moroni 8:34 and 10:31 at the crown and knowledge locations, respectively.

Note: Moroni 10:31 fulfills the rule of endings requirement at knowledge location

1 Nephi 1:1 & 2, Out of Orbit

When the Prototype (1 Nephi 1:1 & 2) separates in Phase 3, the two planets (verse numbers) move up to their foundation spot. Why did Moroni 8:34 and 10:31 both land on the foundation level?

**If 1 Nephi 1:1 — a knowledge verse number — adjusts, where would Moroni 8:34 and 10:34 go?**

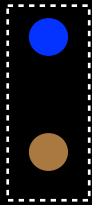

**After one adjustment occurs, Moroni 10:31 proceeds from the knowledge to the kingdom position. With this one early shift, Moroni 8:34 goes from crown to kingdom as well. They would end on the same row but at different places (soul mates).**

1 Nephi 1:1 & 2, Out of Orbit

Instead of one shift,  
both 1 Nephi 1:1 & 2 exit  
the planetary system. At  
this point, the remaining  
planets move up two  
levels. Hence, Moroni  
8:34 and 10:31 go to  
kingdom and, then,  
foundation.

**Moroni 8:34 and  
10:31 move up to  
crown level.**

**Moroni 8:34**

**Moroni 10:31**

**Before Moroni 8:34, 3 Nephi 9:49  
adjusted last. Since both Moroni  
8:34 and 10:31 advanced to the  
crown position from this  
adjustment, Moroni 8:34 would  
move next to the knowledge spot.  
Moroni 10:31 would follow to the  
kingdom location.**

**Moroni 10:31**

**Without Moroni 8:34 as a knowledge  
verse, this shifting opportunity by 3  
Nephi 9:49 opens up for Moroni 10:31.**

**Moroni 10:31 finally adjusts  
from crown to knowledge,  
fulfilling the rule of endings  
requirement.**

**A small window exists for the rule of endings to work.**

**Again, this rule means that Moroni 10:31 must finish at either kingdom or knowledge position for a particular system to be valid.**

**Too few adjustments would keep Moroni 10:31 from reaching the crown level (sefirah).**

**Too many shifts would pull Moroni 10:31 past the kingdom sphere.**

The examples of the planetary system are just that-- examples. They serve to aid in our understanding of the Tree-of-Life patterns in the Book of Mormon. They are graphic tools. I hope they help the reader.
