

Phase Three

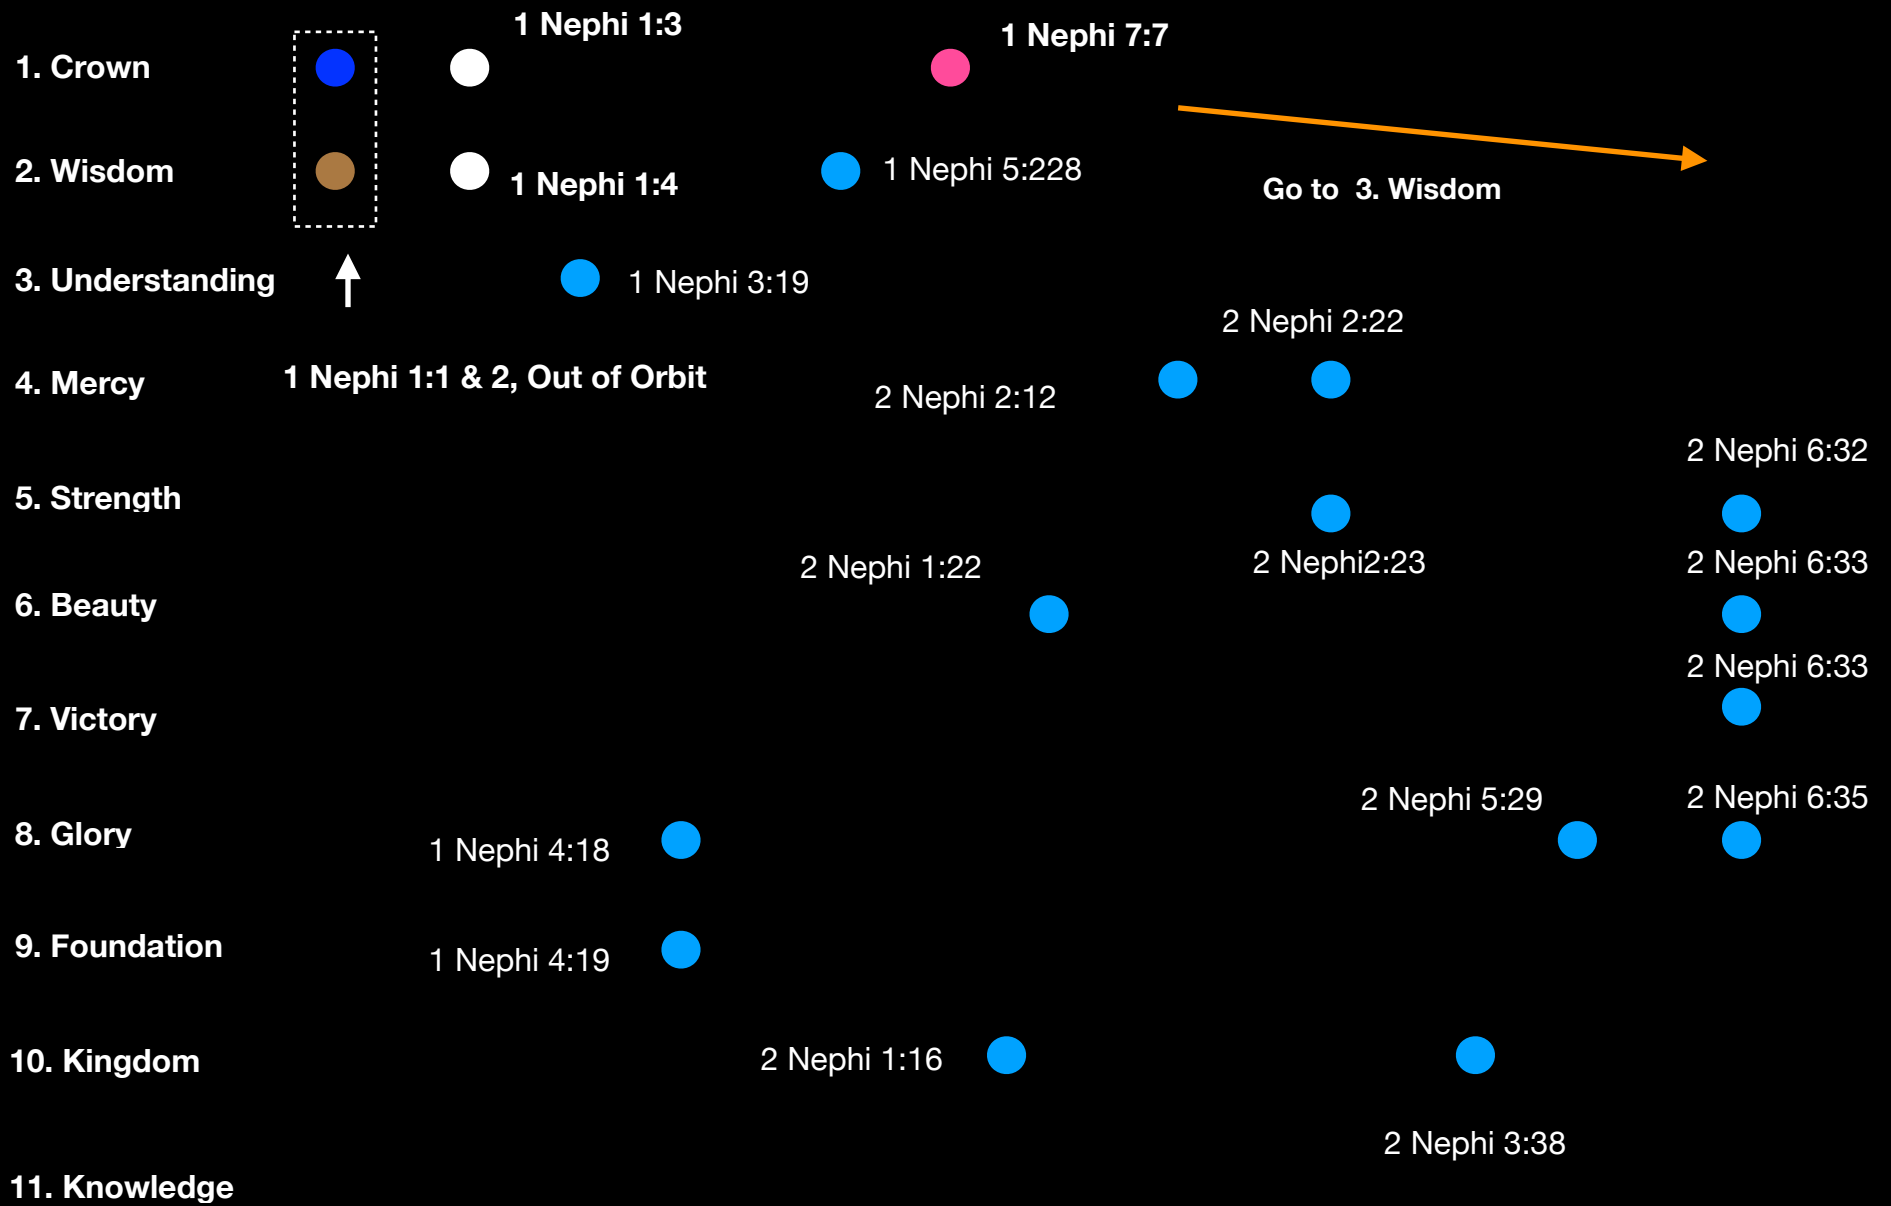

The change commences with 1 Nephi 1:1 and 1:2 acting in tandem and moving out of orbit. 1 Nephi 1:3 and 1:4 (white planets) take their place in rings 1 and 2, respectively. First Nephi 7:7 advances to the first ring (crown), ready to adjust. All of the above changes appear on page two of Phase Three.

By following the orange arrows, the reader can observe the diagonal slant of the adjustable planets.

 Moroni 8:34

If any more are needed, the adjustments will start again at ring one and work diagonally down again.

Planet Moroni 10:31 must end on either ring 10, as in OS 1 will do, or ring 11. To get to the 11th ring, Moroni 10:31 must first land at ring 1, then adjust down to the 11th position as any other adjustable verse-numbered planets. Right now, it is on the 9th ring (foundation, see page 11).
